

SMART **ONE**

QUICK START GUIDE

READ CAREFULLY BEFORE USING THE DEVICE

**WAC52N | WAC52N+
WAC52G | WAC52G+**

Package Contents

1. Waver® SmartOne Router
2. Ethernet Cable Cat5e
3. AC-DC 24 Volt Power Adapter
4. Quick Start Guide

Requirements

- OS: Windows Vista, Windows 7 or newer, Linux, Mac OS X or Android
- Web Browser: Chrome (Recommended), Mozilla Firefox or Apple Safari
- Broadband Internet Connection (Ethernet)

Thank you
for choosing our product!

Your satisfaction is our top priority.

Propose a feature that will be useful to be added on Waver SmartOne in the upcoming software updates at features@wavertech.eu

- Read this manual thoroughly before using Waver SmartOne
- To ensure proper use of the device, make sure to read "Safety Information" page
- After reading, keep it in a readily accessible place for future reference

Safety Information

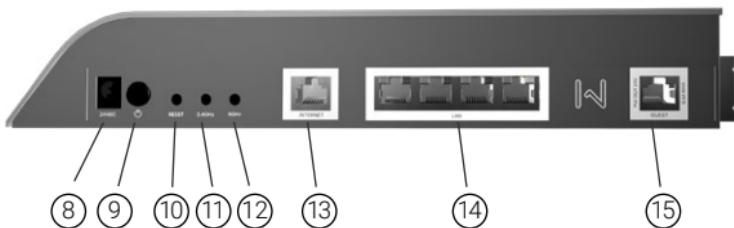

- Use only the supplied Power Adapter. Connection to a different power source may result in improper operation, damage or pose to fire hazard.
- Do not cover ventilation holes at the bottom. This product must be operated on a flat surface far from any heater or heating vent.
- Avoid direct irradiation of any strong light (such as sunlight)
- Keep at least 5 cm of clear space around the device
- Operating Temperature: - 20 - 60°C
- Operating Humidity: 10-90 % RH, Non-condensing
- Do not disassemble the product, or make repairs yourself. You run the risk of electric shock and voiding the warranty.
- Avoid water, moisture and wet locations.
- (N - Series Only) When using Power over Ethernet 24V Port to power another device, use properly wired CAT5e or upper category and make sure the equipment connected at this port does not exceed the 500mA rating of power consumption (!)

WARNING! Any users with implantable cardiac pacemakers should have this product apart the pacemaker by 30cm or longer. The pacemakers may be influenced by radio waves radiated from this product.

Hardware Overview

- 1. Power Led
- 2. Internet Port Led
- 3. 2.4GHz Wireless Interface Led
- 4. 5GHz Wireless Interface Led
- 5. Guest Ethernet Port Led
- 6. RGB Side Led
- 7. Logo Led
- 8. DC Power Jack
- 9. ON/OFF Switch
- 10. Reset to Factory Button
- 11. 2.4GHz Interface Button
- 12. 5GHz Interface Button
- 13. Internet Ethernet Port
- 14. LAN Ethernet Ports
- 15. Guest Ethernet Port
(N Series only - with PoE Out 24V)

Hardware Installation

To install the Waver SmartOne router, perform the following steps:

1. Connect Ethernet cable from you DSL/Cable modem to the INTERNET Port of Waver SmartOne Router.
2. Connect the DC Power Adapter to the router and to a power outlet.
3. Turn on router by pressing the ON/OFF switch to ON position.

The boot process will start. After a while the power LED will light up.

⚠️ IMPORTANT

NEVER DISCONNECT POWER OR TURN OFF THE DEVICE

- a. During the boot process (it takes about 1 minute and 30 seconds to boot up)
- b. During Reboot process
- c. During Factory Reset process
- d. During Firmware update process

- Turning off the device or disconnecting power source during the above processes, can corrupt flash image and can make the device unbootable!

- To turn off the device, make sure boot process has finished (Power, Logo and side RGB Leds are ON).
- Always push the ON/OFF switch to OFF position before unplugging the DC Adapter.

Device Management

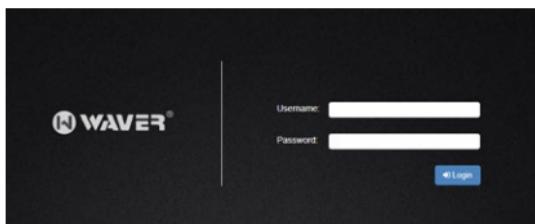

Device can be managed via any web browser. Access to the web interface is available from LAN Ports, Local WiFi Interfaces (local network) and Internet Port.

Web Management tools

1. Administration Interface

Default access:
<http://192.168.10.1>

Username: **admin**
Password: **waver**

2. User manager Interface

User Manager "**admin**" password: **waver**

Default access: <http://192.168.10.1/userman/>
(same account with administration interface)

User Manager "**manager**" password: **password**

Default access: <http://192.168.10.1/userman/>
(limited access account for accessing User Manager)

3. Discount Coupon Code manager

Discount Code Manager password: **password**

Default access: <http://192.168.10.1/coupons/>

4. Customization Panel (Whitelabeling)

Customization Unique Key 

 Login

To access this panel, you are going to need a unique customization key. This key is being generated separately for each device.

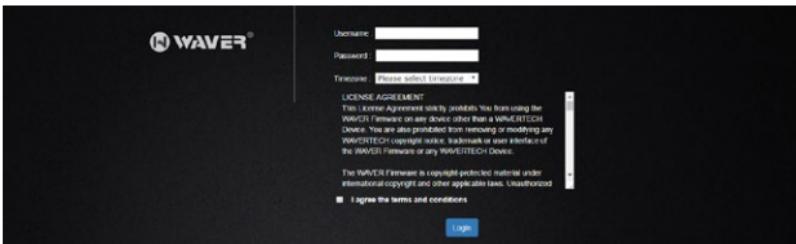

1. Administration Interface

The main administration interface. Networking, guest session, captive portal settings, customization and management for the local device. General system settings and statistics are also available here.

1. To login to the the Administration interface connect with an Ethernet cable to a LAN port or wirelessly to a Local WiFi interface.
2. Launch your Web browser and type <http://192.168.10.1> in the address field.

Press enter (PC) or return (Mac).

Note: Your computer needs to be on the 192.168.10.x subnet. If you have DHCP Client enabled on your network adapter, it will receive an IP Address automatically. If not, you will need to set a static IP address in the 192.168.10.2 - 192.168.10.254 range.

3. Enter “**admin**” as username and “**waver**” as password, select the proper region and time zone (correct time zone is very important for database synchronization and other critical device functions). Read carefully the end user license agreement. If you agree with all the terms you can check the “I agree the terms and conditions” checkbox and click on the “Login button”.

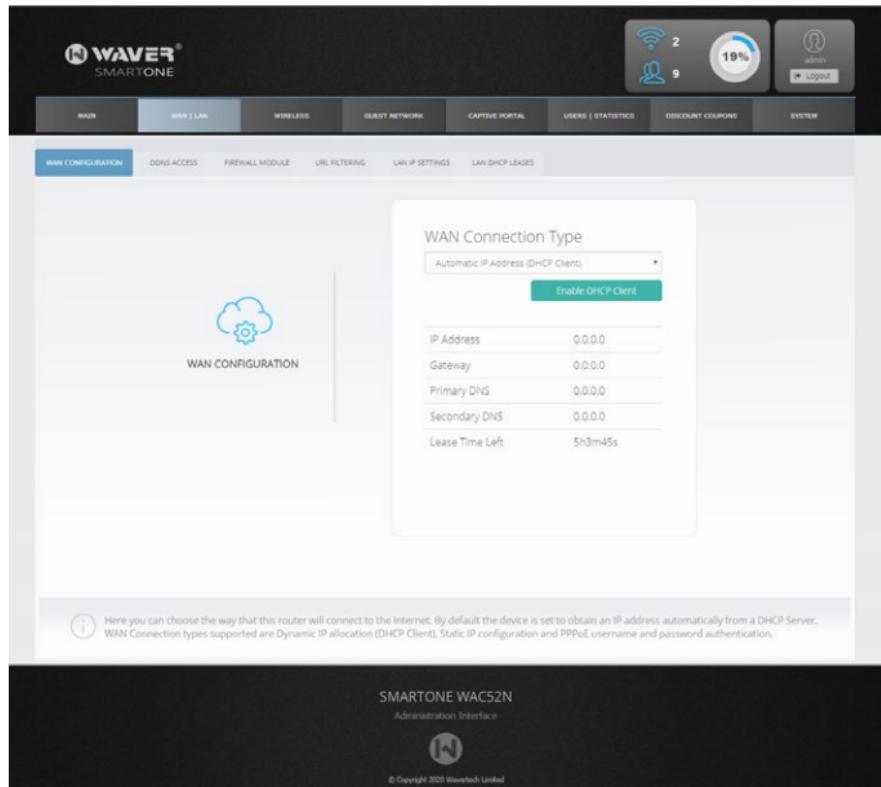

4. The **MAIN** page of configuration interface will appear. You are logged in and you can configure your Waver SmartOne router.

An overview on the administration interface

The screenshot displays the main administration interface of the Waver SmartOne router. At the top, there's a header bar with the Waver logo, navigation tabs (WIRELESS, ADVANCED, SYSTEM, SECURITY, DISCOVER LOCATIONS, and SUPPORT), and a battery icon indicating 14% power. Below the header, a summary section shows key statistics: 0 Free Users, 15 Users, 6512 Email Users, 0 Mobile Users, and 2659 Facebook Users. To the right of these stats is a throughput graph titled "THROUGHPUT" showing Rx (red line) and Tx (blue line) data over time. The graph has three modes: WIRELESS, LAN, and ACCESS. The WIRELESS mode is selected. The bottom half of the screen is divided into several sections: "System" (including Name: PHO, Uptime: 7h 16m, System Time: 05:57:05pm, System Date: 08/08/2020, Admin IP: 192.168.1.200, Guest Log: 0, and Power Sync Enabled), "Ethernet Interfaces" (listing WAN Port MAC: 64:D1:54:4F:0E:01, LAN Port MAC: 64:D1:54:4F:0E:01, Guest Port Down, and Guest Port MAC: 64:D1:54:4E:0E:02), "WIFI 2.4GHz" (Interface: wireless_1, Frequency: 2422 MHz (Auto), Channel Width: 20 MHz, Tx Power: 20 dBm, Mode: 802.11n/b/g, Local Network: SSID: PHONET, Guest Network: SSID: PHONET), and "WIFI 5GHz" (Interface: wireless_2, Frequency: 5180 MHz (Auto), Channel Width: 20 MHz, Tx Power: 23 dBm, Mode: 802.11ac/n/a, Local Network: SSID: PRIVATE, Guest Network: SSID: PHONET). On the right side, there's an "INTERNET STATUS" section showing a connection diagram between a physical router and a cloud icon labeled "WWW". A status message "CONNECTED OK" is displayed above the connection line. The footer of the interface includes the model name "SMARTONE WAC52N", the "Administration Interface" title, and the "H" Waver logo, along with a copyright notice: "© Copyright 2018 Wavetek Limited".

WAN | LAN

Configures Internet connectivity type, Firewall and Port forwarding, Website Filtering and Local Network Settings.

The screenshot shows the administration interface of the Smartone WAC52N router. At the top, there's a header bar with the Waver Smartone logo and navigation links: MAIN, WAN | LAN (which is highlighted in blue), WIRELESS, GUEST NETWORK, CAPTIVE PORTAL, USERS | STATISTICS, DISCOUNT COUPON, and SYSTEM. To the right of the header are icons for Wi-Fi signal strength (2), battery level (19%), user count (9), and a log-out button. Below the header is a sub-navigation bar with links: WAN CONFIGURATION (highlighted in blue), DONS ACCESS, FIREWALL MODULE, URL FILTERING, LAN IP SETTINGS, and LAN DHCP LEASES. The main content area is titled "WAN Connection Type" and shows a dropdown menu set to "Automatic IP Address (DHCP Client)". A green "Enable DHCP Client" button is below the dropdown. To the left of this section is a "WAN CONFIGURATION" icon with a cloud and gear symbol. A table provides network details:

Setting	Value
IP Address	0.0.0.0
Gateway	0.0.0.0
Primary DNS	0.0.0.0
Secondary DNS	0.0.0.0
Lease Time Left	5h3m45s

A note at the bottom of this section states: "Here you can choose the way that this router will connect to the Internet. By default the device is set to obtain an IP address automatically from a DHCP Server. WAN Connection types supported are Dynamic IP allocation (DHCP Client), Static IP configuration and PPPoE username and password authentication."

The footer of the interface includes the model name "SMARTONE WAC52N", the text "Administration Interface", the Waver logo, and the copyright notice "© Copyright 2020 Wavertech Limited".

WIRELESS

Shows wireless interface information and statistics,
Configures interface and wireless networks settings.

MAIN MAN | LAN WIRELESS GUEST NETWORK CAPTIVE PORTAL USERS | STATISTICS DISCOUNT COUPON SYSTEM

This page displays information about the actual devices connected on your wireless networks. You have the ability to block access to any unwanted wireless device using the "Block" button. To manage blocked devices, open the blocked device list by clicking on "Blocked WiFi Devices".

SMARTONE WAC52N
Administration Interface

© Copyright 2020 Wavetech Limited

GUEST NETWORK

Configures network parameters for guest network. It shows information regarding devices on the guest network.

The screenshot shows the Smartone WAC52N Administration Interface. The top navigation bar includes links for MAIN, WAN | LAN, WIRELESS, GUEST NETWORK (which is highlighted), CAPTIVE PORTAL, USERS | STATISTICS, DISCOUNT COUPONS, and SYSTEM. On the right side, there's a user icon showing 'admin' and a 'Logout' button. Below the navigation, a sub-navigation bar lists ACTIVE GUESTS, GUESTS GRAPH, GUEST IP SETTINGS, NETWORK HOSTS, GUEST ETHERNET, GUEST DHCP LEASES, GUEST FEEDBACK, and WALL-E GARDEN. The main content area is divided into two columns. The left column is titled 'Bandwidth and Device Settings' and 'Control Bandwidth and Device Limits for Guest Network'. It contains sections for 'Guest Network Bandwidth' (with 'Network Maximum Download Speed' set to 40 Mbps and 'Network Maximum Upload Speed' set to 10 Mbps) and 'Free, Facebook, Email, Mobile Guest Limits' and 'Username Guest Limits'. A 'Save' button is at the bottom. The right column is titled 'Time Session Settings' and 'Control Time Session Limits for Guest Network'. It contains sections for 'Guest Session Time Limit' (set to 5 Days) and 'Guest Reconnection Time' (set to 'immediately'). A 'Session Settings' link is also present. A note at the bottom left of the main content area states: 'Here you can control bandwidth and session related limits for the guest network. Limit overall guest network speed, user session time, download and upload speed per device, concurrently connected devices with the same username etc. Note: Setting affects users connected on your guest Ethernet and Wireless interfaces.' The footer of the interface displays the model 'SMARTONE WAC52N', the text 'Administration Interface', the Wavetech logo, and the copyright notice '© Copyright 2020 Wavetech Limited'.

CAPTIVE PORTAL

Configures the guest landing page appearance and the way guests are authenticated on your guest network.

The screenshot shows the Waver Smartone Administration Interface with the 'CAPTIVE' tab selected in the top navigation bar. The interface includes various status indicators (Wi-Fi signal strength, battery level, user count) and navigation links for Main, WAN/LAN, Wireless, Guest Network, Captive Portal, Users | Statistics, Discount Coupons, and System.

The 'CAPTIVE' page displays several configuration sections:

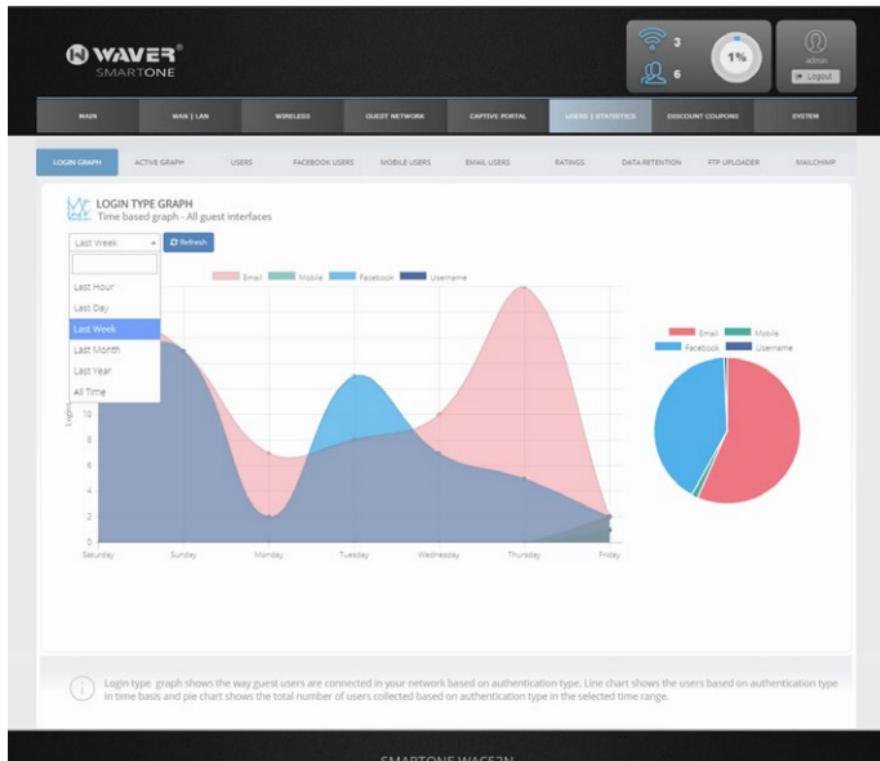

- PAGE OPTIONS:** Includes 'Custom Background' and 'Selected Portal Font' dropdowns.
- PORTAL THEME:** Shows 'Custom Background' as the selected theme.
- VIDEO SETTINGS:** Includes options for Autoplay Video (Muted), Enable Video Controls, Show Video in First Page, Show Video in Auth Page, and Force Guest to Watch Video Before Login.
- IMAGE SETTINGS:** Includes options for Show Images as a Slider, Show Images in First Page, and Show Images in Auth Page.
- SAVE:** A green 'Save' button at the bottom right of the configuration area.

To the right of the configuration area, there is a preview window showing a guest landing page with a background image of a beach at night, a 'Connection to our WiFi' section with terms and conditions, and a 'Connect to WiFi' button.

The footer of the interface identifies it as SMARTONE WAC52N Administration Interface and includes a copyright notice for WaveTech Limited.

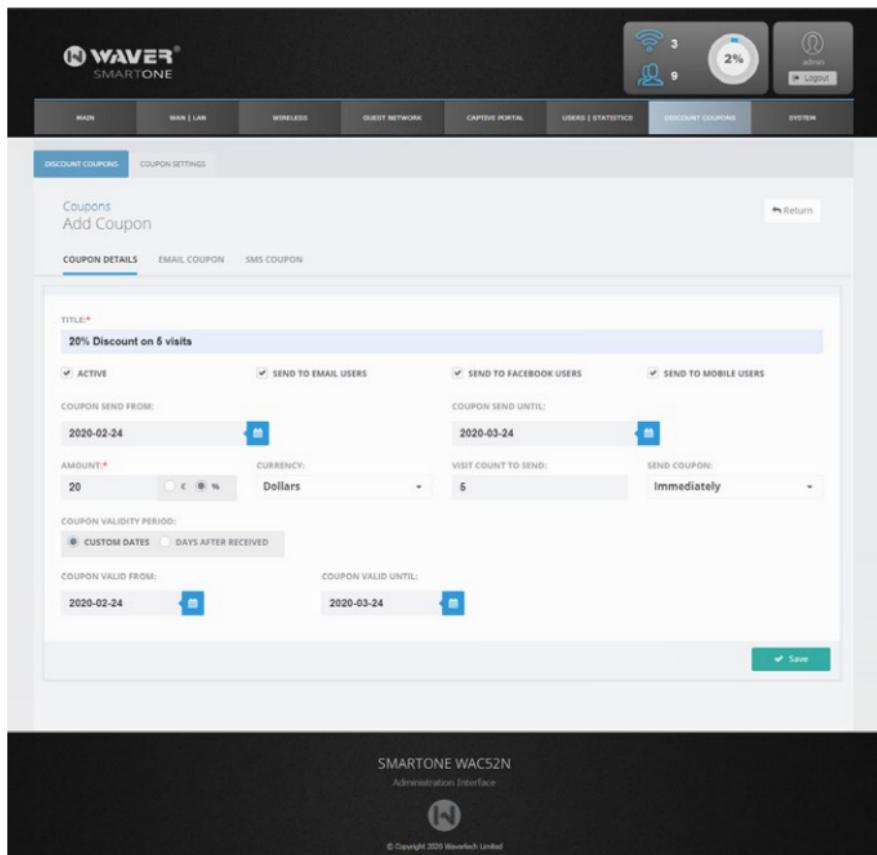

GUEST USERS | STATISTICS

Analytic guest user data statistics. The synchronization of user data with third party or external systems can also be managed on this page.

DISCOUNT COUPONS

Controls the discount coupons and Email/SMS discount coupons generation. Discount coupons are based on guest visit count (user login counting).

The screenshot shows the Smartone WAC52N Administration Interface. At the top, there's a navigation bar with links for MAIN, WAN | LAN, WIRELESS, GUEST NETWORK, CAPTIVE PORTAL, USERS | STATISTICS, DISCOUNT COUPONS (which is the active tab), and SYSTEM. On the right side of the header, there are icons for WiFi signal strength (3), user count (9), a progress bar at 2%, and a user profile with 'admin' and a 'Logout' button.

The main content area is titled 'Coupons' and has a sub-section 'Add Coupon'. It includes tabs for COUPON DETAILS, EMAIL COUPON, and SMS COUPON. The COUPON DETAILS tab is selected.

Form fields include:

- TITLE:** 20% Discount on 5 visits
- ACTIVE:**
- SEND TO EMAIL USERS:**
- SEND TO FACEBOOK USERS:**
- SEND TO MOBILE USERS:**
- COUPON SEND FROM:** 2020-02-24
- COUPON SEND UNTIL:** 2020-03-24
- AMOUNT:** 20 (radio buttons for \$, €, ₪, %) CURRENCY: Dollars
- VISIT COUNT TO SEND:** 5
- SEND COUPON:** Immediately
- COUPON VALIDITY PERIOD:** CUSTOM DATES (radio button selected)
- COUPON VALID FROM:** 2020-02-24
- COUPON VALID UNTIL:** 2020-03-24

A green 'Save' button is located at the bottom right of the form.

The footer of the page displays the model name SMARTONE WAC52N, the administration interface information, and the copyright notice © Copyright 2020 WaveTech Limited.

SYSTEM

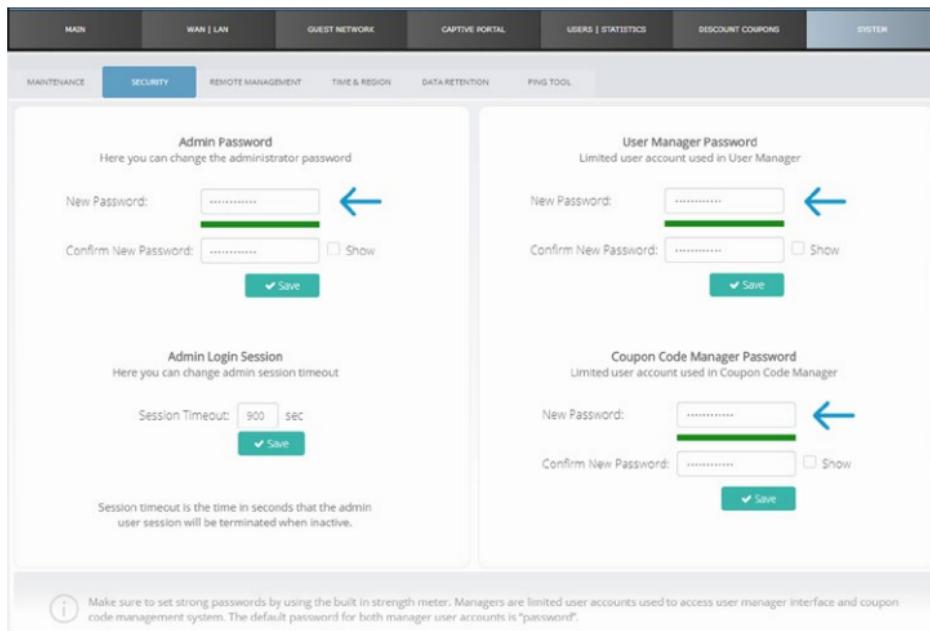

Gives you access to system settings, security, data retention and system timezone. Here you will find also firmware update and networking tools.

The screenshot shows the administration interface for the Smartone WAC52N. At the top, there's a header bar with the WAVER SMARTONE logo, a navigation menu with links like MAIN, WIRELESS, GUEST NETWORK, CAPTIVE PORTAL, USERS | STATISTICS, DISCOUNT COUPONS, and SYSTEM, and a user status indicator for 'admin' with a 'Logout' link. Below the header is a sub-navigation bar with links for MAINTENANCE, SECURITY, REMOTE MANAGEMENT, TIME & REGION, DATA RETENTION, LED CONTROLLER, and PING TOOL. The main content area is titled 'Firmware Update' and shows the current firmware version as WS24 - ver.1.7. It includes a 'Choose File' input field with 'No file chosen' and a blue 'Update Firmware' button. Below this is a section titled 'System reboot and reset' with buttons for 'Reboot device' and 'Reset to default'. A note at the bottom left advises users to keep backups and export user data before updating. The footer contains the model name 'SMARTONE WAC52N', the text 'Administration Interface', the WAVER logo, and a copyright notice: '© Copyright 2020 Wavertech Limited'.

Securing the device

- 1 - Login to the Administration interface
- 2 - Go to SYSTEM - SECURITY tab

- A.** Enter a strong password in all the new password fields as marked below

The screenshot shows the MikroTik Administration interface with the following sections visible:

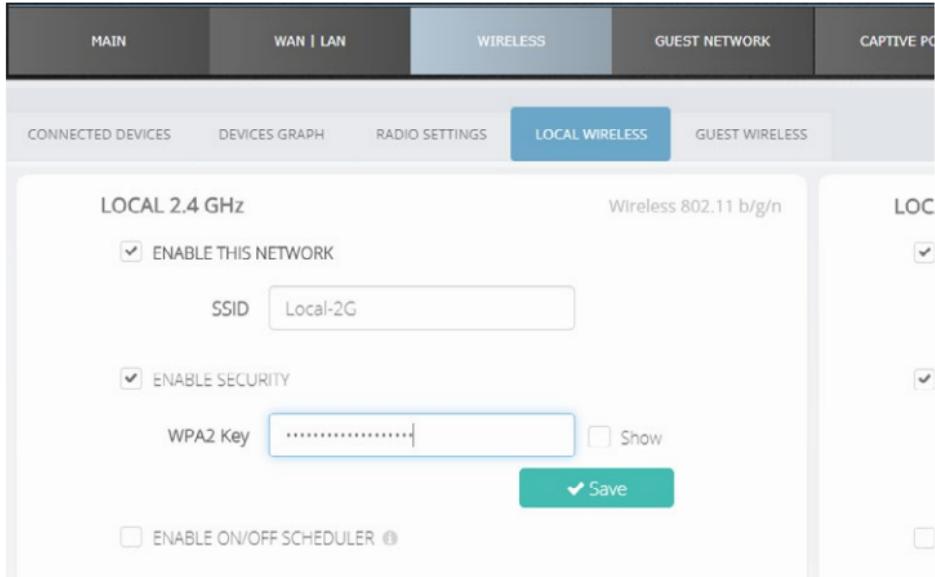

- Maintenance**: Includes links for **SECURITY**, **REMOTE MANAGEMENT**, **TIME & REGION**, **DATA RETENTION**, and **PING TOOL**.
- SYSTEM**: Sub-sections include **MAINTENANCE**, **SECURITY** (which is currently selected), **REMOTE MANAGEMENT**, **TIME & REGION**, **DATA RETENTION**, and **PING TOOL**.
- Admin Password**: Here you can change the administrator password. It contains two password input fields, "New Password" and "Confirm New Password", both with redacted text. A blue arrow points to the "New Password" field.
- User Manager Password**: Limited user account used in User Manager. It contains two password input fields, "New Password" and "Confirm New Password", both with redacted text. A blue arrow points to the "New Password" field.
- Admin Login Session**: Here you can change admin session timeout. It contains a "Session Timeout" input field set to "900 sec". A blue arrow points to this input field.
- Coupon Code Manager Password**: Limited user account used in Coupon Code Manager. It contains two password input fields, "New Password" and "Confirm New Password", both with redacted text. A blue arrow points to the "New Password" field.

Note: Make sure to set strong passwords by using the built-in strength meter. Managers are limited user accounts used to access user manager interface and coupon code management system. The default password for both manager user accounts is "password".

- B.** Enter the same password in each confirm new password field and click the "Save" button

Securing Local Wireless Networks

In the Administration interface go to WIRELESS -> LOCAL WIRELESS tab.

The screenshot shows the Winbox Administration interface with the following details:

- MAIN**, **WAN | LAN**, **WIRELESS** (selected), **GUEST NETWORK**, **CAPTIVE PO**
- CONNECTED DEVICES**, **DEVICES GRAPH**, **RADIO SETTINGS**, **LOCAL WIRELESS** (highlighted in blue), **GUEST WIRELESS**
- LOCAL 2.4 GHz** interface selected
- Wireless 802.11 b/g/n**
- LOC** (Local) checked
- ENABLE THIS NETWORK** checked
- SSID**: Local-2G
- ENABLE SECURITY** checked
- WPA2 Key**: (redacted)
- Show** checkbox (unchecked)
- Save** button (green with checkmark)
- ENABLE ON/OFF SCHEDULER** (checkbox unchecked)

- A.** Enter a name for your wireless network in the SSID field
 - B.** Enable security for wireless network
 - C.** Enter a passphrase in the WPA2 Key field
 - D.** Click on the “Save” button
- i** The same way you can manage SSID and Security for Local 5GHz and guest wireless interfaces

2. User Manager

A powerful Web tool for managing user/pass credentials used by Username authentication in captive portal and payment portal. With user manager you can customize Printable tickets, Payment Portal appearance, Payment plans pricing, limits etc. It reports to admin details like PayPal Statistics, Logging of users adding or removal. User Manager is mobile friendly and has a limited user account called “manager” for use by employees.

The screenshot shows the 'User Manager' section of the Waver web application. On the left, there's a sidebar with navigation links: 'Ticket Generation', 'Users', 'Payment Plans', 'Settings' (with sub-options like 'General Settings', 'Billing Options', 'Ticket Generation Plans', 'Payment Portal Settings', 'Payment Portal Options', 'Report Reports', and 'Logs'), and 'API'. The main area is titled 'Users' and displays a table with 10 rows of user data. The columns are: #, Full Name, Username, First Login, Last Login, MAC, Valid From, Valid Until, Traffic Limit (Remaining), Data Usage (Remaining), and Action. Each row includes a checkbox, a user icon, and a delete icon. At the bottom of the table, it says 'Showing 1 to 10 of 15 entries' and has 'Previous' and 'Next' buttons. The top right of the page shows 'API' and a user icon.

#	Full Name	Username	First Login	Last Login	MAC	Valid From	Valid Until	Traffic Limit (Remaining)	Data Usage (Remaining)	Action

API Access

User/pass management via HTTP API

3. Discount Coupon Codes Manager

A mobile friendly coupon code manager tool for use by employees to check coupon code validity and redeem the active ones.

Discount coupons generation can be managed by Administration Interface -> DISCOUNT COUPONS tab.

The screenshot shows the Waver Coupon Code Manager interface. At the top, there are four main sections: 'Available Codes' (9), 'All Codes' (5), 'Available Codes' (5), and 'Redeemed Codes' (4). Below these are two tabs: 'Available Codes' (selected) and 'Redeemed Codes'. The 'Available Codes' section displays a table with columns: #, Coupon Code, Discount, Created, ValidFrom, ValidUntil, and Action. The table contains five rows of data. The 'Redeemed Codes' section shows a table with one row: 'Showing 1 to 5 of 5 entries'.

#	Coupon Code	Discount	Created	ValidFrom	ValidUntil	Action
1	1986221	25%	2018-06-28 19:28:07	2018-06-28	2018-07-08	<input type="button" value="View"/>

3	ZNA88MT	5%	2018-06-28 19:28:07	2018-06-24	2018-07-09	<input type="button" value="View"/>
4	217E4BUB	Beer	2018-06-29 32:18:31	2018-06-24	2018-06-30	<input type="button" value="View"/>
5	4JN874	5%	2018-06-29 32:18:31	2018-06-24	2018-06-30	<input type="button" value="View"/>

4. Customization Panel (White labeling)

\$ PAID FEATURE (one-time purchase)

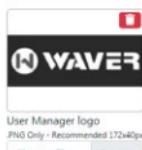

Customization panel gives the ability to companies and integrators to modify the software and use their own logo, page titles and EULA texts instead of Waver defaults. Changes are permanent, which means that even a full factory reset will not affect these settings.

Customization Panel

⚠ These settings are permanent and are not affected by a factory reset

Firmware Update & Reset

UPDATE PROCEDURE:

- 1 - Download device firmware from our website
- 2 - Login to the Administration interface
- 3 - Go to SYSTEM - MAINTENANCE tab
- 4 - Upload the downloaded .bin firmware file
- 5 - Press the reboot button and confirm when you will be prompted to reboot the device
- 6 - Wait a few minutes until the boot procedure finishes up (approx 3 minutes)

FACTORY RESET:

WARNING! This will delete all stored user data and restore all settings to factory defaults.

Method 1. Using Software

Use the "Reset to default" function in Administration Interface
-> SYSTEM - MAINTENANCE tab.

Method 2. Using reset button

Using a tool, hold and press the reset button. After 2 seconds, the RGB side LED will start blinking in yellow. Continue pressing the button for 10 seconds. The side LED will continue to blink after release. The factory reset procedure will start in a while and the LED will start blinking in red color.

Limited Warranty & Returns

WAVERTECH LTD. ("WAVERTECH") warrants that the product(s) provided hereunder (the "Product(s)") will be free from defects in material and workmanship for a period of twenty four (24) months. The warranty duration begins from the date of purchase by the customer from WAVERTECH or its authorized representatives. The warranty applies only under normal use and operation of the product.

WAVERTECH solely reserves the right to repair or replace the defective product. The removal and installation cost is not covered by this warranty. Any repair or replacement does not extend the duration of the warranty period.

The above limited warranty does not cover any cases of/or defects that arise due to:

- Not original products, which are not given a WAVERTECH Serial Number, or original signs, trademarks etc.
- Alterations, modifications or additions to the product unless those made by WAVERTECH, or WAVERTECH's authorized representatives, or as authorized by WAVERTECH in writing.
- Any kind of physical modifications of the product, including painting or rebranding.
- Damages due to wrong or defective cabling.
- Misuse, abuse, negligence, irregularly physical, electromagnetic or electrical stress, including lightning strikes, or accident.
- Malfunction or damage due to use of firmware not supplied/provided/supported by WAVERTECH.
- Products not being received by WAVERTECH within 30 days of issuance of the RMA.

The above limited warranty covers cases that:

- The product has been installed and used according to the written instructions.
- The Ethernet is connected with cable of CAT5 (or above), outdoor installations are connected with shielded - grounded Ethernet and indoor installations follow the required indoor cabling instructions.

Returns of defective products

During the warranty period defective products are accepted for repair or replacement only if they are accompanied by a Return Materials Authorization (RMA) number from WAVERTECH, details on the RMA process are available at: <https://www.wavertech.eu/support> under the Returns Policy section. Products shipped to WAVERTECH without a RMA number will not be processed and will be returned or subject to disposal.

Disclaimer of Warranty

EXCEPT FOR THE WARRANTIES EXPRESSLY PROVIDED ABOVE AND TO THE EXTENT LAWFULLY PERMITTED, WAVERTECH DOES NOT WARRANT FOR ANY INCIDENTAL, CONSEQUENTIAL, DIRECT OR INDIRECT DAMAGES, INCLUDING WITHOUT RESTRICTION DAMAGES OR LOSSES RESULTING FROM USE OR MALFUNCTION OF WAVERTECH PRODUCTS, COMPROMISE OR CORRUPTION OF DATA, LOSS OF BUSINESS OR PROFITS, REPARATION COSTS. THE ABOVE LIMITATION CLAUSE MAY NOT APPLY ONLY IN LEGAL ORDERS, WHERE IT IS PROHIBITED BY THE LAW.

Any and all other warranties are explicitly excluded.

This warranty is governed and interpreted according to the legal order of the country of purchase of the WAVERTECH product.

Declaration of Conformity (CE)

[EN] English

Hereby, WAVERTECH declares that the product WAVER SMART ONE is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU.

[BG] Bulgarian

С настоящето, WAVERTECH декларира, че WAVER SMART ONE е в съответствие със съществените изисквания и другите приложими разпоредби на Директива 2014/53/EU.

[CZ] Czech

WAVERTECH tímto prohlašuje, že WAVER SMART ONE splňuje zakladní požadavky a všechna příslušna ustanovení Směrnice 2014/53/EU.

[DK] Danish

Undertegnede WAVERTECH erklarer herved, at følgende udstyr WAVER SMART ONE overholder de væsentlige krav og ovrigt relevante krav i direktiv 2014/53/EU.

[DE] German

Hiermit erklärt WAVERTECH dass sich das Gerät WAVER SMART ONE in Übereinstimmung mit den grundlegenden Anforderungen und den übrigen einschlägigen Bestimmungen der Richtlinie 2014/53/EU befindet.

[EE] Estonian

Kaesolevaga kinnitab WAVERTECH seadme WAVER SMART ONE vastavust direktiivi 2014/53/EU pohinouetele ja nimetatud direktiivist tulenevatele teistele asjakohastele satetele.

[GR] Greek

ΜΕ ΤΗΝ ΠΑΡΟΥΣΑ Ο ΚΑΤΑΣΚΕΥΑΣΤΗΣ WAVERTECH ΔΗΛΩΝΕΙ ΟΤΙ ΤΟ ΠΡΟΪΟΝ WAVER SMART ONE ΣΥΜΜΟΡΦΩΝΕΤΑΙ ΠΡΟΣ ΤΙΣ ΟΥΣΙΩΔΕΙΣ ΑΠΑΙΤΗΣΕΙΣ ΚΑΙ ΤΙΣ ΛΟΙΠΕΣ ΣΧΕΤΙΚΕΣ ΔΙΑΤΑΞΕΙΣ ΤΗΣ ΟΔΗΓΙΑΣ 2014/53/EU.

[ES] Spanish

Por la presente, WAVERTECH declara que este WAVER SMART ONE cumple con los requisitos esenciales y otras exigencias relevantes de la Directiva 2014/53/EU.

[IT] Italian

Con la presente WAVERTECH dichiara che questo WAVER SMART ONE è conforme ai requisiti essenziali ed alle altre disposizioni pertinenti stabilite dalla direttiva 2014/53/EU.

[LV] Latvian

Ar šo WAVERTECH deklarē, ka WAVER SMART ONE atbilst Direktīvas 2014/53/EU būtiskajām prasībām un citiem ar to saistītajiem noteikumiem.

[LT] Lithuanian

Šiuo WAVERTECH deklaruojama, kad šis WAVER SMART ONE atitinka esminius reikalavimus ir kitas 2014/53/EU Direktyvos nuostatas.

[HU] Hungarian

A WAVERTECH ezzennel kijelenti, hogy a WAVER SMART ONE tipusu beren-dezes teljesít az alapvető követelményeket és más 2014/53/EU irányelvben meghatározott vonatkozó rendelkezéseket.

[NL] Dutch

Hierbij verklaart WAVERTECH dat het toestel I WAVER SMART ONE in overeenstemming is met de essentiële eisen en de andere relevante bepalingen van richtlijn 2014/53/EU.

[PL] Polish

Niniejszym WAVERTECH deklaruje że WAVER SMART ONE jest zgodny z zasadniczymi wymaganiami i innymi właściwymi postanowieniami Dyrektywy 2014/53/EU.

Model WAC52N/WAC52N+

Technical Specifications

Fast Ethernet Interfaces	1x WAN/Internet, 4x LAN, 1x Guest Port With Passive PoE out
Wireless Interfaces	Dual Chain 2.4GHz 802.11b/g/n Single Chain 5GHz 802.11a/n/ac
Concurrent Active Guests	200 - WAC52N Model 500 - WAC52N+ Model
Buttons	Power On/Off, Factory Reset 2.4GHz Radio, 5GHz Radio
Maximum supported WAN Throughput	100 Mbps
LEDs	Logo, Corner RGB-Multicolor, Power, WAN/Internet port, 2.4GHz Radio, 5GHz Radio, Guest Port, LAN Ports x4
Antennas Type/Beam width	Integrated 360° 1.5dBi for 2.4GHz Radio Integrated 360° 2dBi for 5GHz Radio
Maximum Radio Tx Power	19 dBm @ 2.4 GHz 22 dBm @ 5 GHz
Wireless Chips	QCA9531 (2.4GHz 802.11b/g/n) QCA9887 (5GHz 802.11a/n/ac)
Operating Temperature (°C)	-20 to +60
Input Voltage	24V 1.2A
PoE Output Voltage	24V 0.5A via Guest Port
Dimensions (mm)	286x165x46
Weight (g)	850
Certifications	CE/RED, FCC, ROHS

Model WAC52G/WAC52G+

Ethernet Interfaces	1x GbE WAN/Internet, 4x LAN Fast Ethernet, 1x GbE Guest Port
Wireless Interfaces	Dual Chain 2.4GHz 802.11b/g/n Dual Chain 5GHz 802.11a/n/ac Wave-2
Concurrent Active Guests	200 - WAC52G Model 500 - WAC52G+ Model
Buttons	Power On/Off, Factory Reset 2.4GHz Radio, 5GHz Radio
Maximum supported WAN Throughput	1 Gbps
LEDs	Logo, Corner RGB-Multicolor, Power, WAN/Internet port, 2.4GHz Radio, 5GHz Radio, Guest Port, LAN Ports x4
Antennas Type/Beam width	Integrated 360° 2.5dBi for 2.4GHz Radio Integrated 360° 2.5dBi for 5GHz Radio
Maximum Radio Tx Power	19 dBm @ 2.4 GHz 22 dBm @ 5 GHz
Wireless Chips	IPQ-4018 Wave-2 5GHz 802.11ac & 2.4GHz 802.11b/g/n
Operating Temperature (°C)	-20 to +60
Input Voltage	24V 0.8A
Dimensions (mm)	286x165x46
Weight (g)	950
Certifications	CE/RED, FCC, ROHS

Industry Canada

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes: (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

FCC Interference Statement Federal Communications Commission

This equipment has been assembled by tested components which found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. Complete system has not been tested.

Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Separate collection

This product is designed for separate collection at an appropriate collection point. Do not dispose of as household waste.

For indoor use only

This product is designed for indoor usage only.
Outdoor usage is not recommended.
